The ETA 29 was designed by Ken Bedford and produced by the Bedford family company, Eta Instruments, located initially at 5 Hempstead Road, Watford, Herts, England. It made its first appearance on the market in April 1949 and continued in production and development through to 1968. The company logo seen here uses the Greek character/symbol that is used in science and engineering for efficiency--a particularly apt choice for a manufacturer of high quality instrumentation and racing engines.
