~~5 Common Excel Problems & Solutions~~

If you are running Windows 8, click Run in the Apps menu > type Excel /safe in the Run box, then click OK. If you are running Windows 7, click Start > type Excel /safe in Search programs and files, then click OK. If the issue is resolved, click File > Options > Add-ins. Select COM Add-ins, and click Go.

~~Excel not responding, hangs, freezes or stops working — Excel~~

Excel doesn't recognize text in a formula: Ensure your formulas are typed correctly, and that any text is enclosed in quotation marks: #VALUE! Your formula has the wrong type of argument (i.e., a mix of text and numeric fields) Use functions instead of operators & check that you're referencing the correct cells: #DIV/0!
