Chemistry in Context is a text that teaches chemistry through real-world applications. The lab manual is no different! Each investigation mimics lab procedures used in research labs, and the ...

Lab Manual
Students from Rivera lab getting ready to present their summer research ... At Hope, we provide new and interesting ways for you to do biology, not just learn about it. The biology department will ...

Biology Department
Introduction to Geology is a textbook designed to ease new students into the often complex topics of Geology and the study of our planet and its makeup. The book assists readers through the beginning ...

Laboratory Manual for Introductory Geology
The European Molecular Biology Laboratory (EMBL) is Europe's esteemed lab network for research in molecular biology. EMBL is funded by 20 member states an one associate member. EMBL operates in 5 ...

European Molecular Biology Laboratory
The animal physiology teaching laboratory is located on the 4th floor of Carnegie Science. Courses in Animal Physiology, Anatomy and Physiology, and Seminar and Research in Physiology are taught in ...

Physiology Teaching Laboratory
The laboratory-specific SOPs do not need to duplicate the more general SOPs contained in this manual but should supplement this document. Security and Inventory of Biological Agents Each PI is ...

Chapter 5: Laboratory Biosafety Practices
While most of us are born with 2 sex chromosomes in either a combination of XX or XY, there are many cases of people who carry extra sex chromosomes. When men carry an extra X chromosome, it causes a ...

Rare Genetic Condition Discovered in Ancient Human
Collection, preservation, identification, taxonomy and biology of medically important arthropods, especially insects. Survey collection required for graduate credit. Fee: \$100 BIO 4106 Molecular ...

BIO-4000 Courses
Biology is a diverse and rapidly expanding field of study that addresses issues relevant to health, agriculture, industry and the environment. Biologists are responsible for new discoveries in ...

Department of Biological Sciences
The Carnegie Microscopy Lab is a shared campus facility used primarily by the departments of Biology, Geology, Neuroscience, Physics, and Chemistry. During fall 2012 the lab acquired a new FE-SEM/EDS ...

Carnegie Microscopy Laboratory
Many different proteins can bind DNA, and they perform a variety of critical functions in cells. DNA-binding proteins often attach to specific places in the genome, and they may help respond to stress ...

DNA-Binding Proteins Both Search & Bind Rapidly
In this regard, the fruit fly (*Drosophila melanogaster*), a pre-eminent model organism in developmental biology ... encouraged the Furlong lab and their collaborators to take on this challenge.

Zooming in to get the full picture
CHEM 25a and 25b Organic Chemistry Laboratory I and II, CHEM 29a and 29b Biology electives: A full list of courses in this group can be found in the University Bulletin. Bachelor of Arts requires 12 ...

Bachelor's Degrees in Biology
Located on the sixth floor of the Biology Department, the MGPL serves two main purposes. The first is to provide excellent laboratory facilities and expertise to enable the application of DNA ...
