The Psychiatric Interview: A Practical Guide by Daniel J ...

B.T. Ribeiro, D. de Souza Pinto, in Encyclopedia of Language & Linguistics (Second Edition), 2006. The psychiatric interview is a key diagnostic instrument for psychiatrists given that laboratory exams do not provide evidence for psychopathologic processes. Psychiatry derives its practice from clinical observations that take place in face-to-face encounters between patient and doctor where thought, language, and communication disorders are closely investigated.
