There is a lot of ground to cover whether it is a budgeting concern or performance assessment, a good project manager can make decisions fast and effective.. With Excel playing a big role in almost all businesses, a good and reliable template to stay on top of ...

The 7 Best Project Management Templates for Excel (2020)

Calculate the average income by months and find the profitability of the project. We use the formula:

=AVEDEV(C4:C13)/B4. The format of the cell with the result is a percentage. The higher the profitability ratio, the more attractive the project. The main disadvantage of this formula - is that it is so difficult to predict future receipts.
