The Descent of Man Charles Darwin (1874)
Product Details. Published on the anniversary of Darwin's 200th birthday, these prime excerpts from the great naturalist's landmark work build on the evolutionary concepts introduced in **On the Origin of Species**. The earlier work provided a basic exposition of Darwinian theory. **The Descent of Man**, published a dozen years later, asserts that humans are the descendants of apes, which were descended from even more primitive creatures.

The Descent of Man - Dover Publications
